

## Organisational Review – Outline & Benefits

### Why did we develop this service?

- As a business owner do you find you are wearing too many hats?
- Do you have clearly defined departments and functions within your organisation?
- Does every employee have clarity about their role and responsibilities?
- Do you have job descriptions for every role in your organisation?

In order for a business to run effectively and efficiently there needs to be a clear organisation chart, which visually defines departments, functions, roles and responsibilities. Not only for the current structure, but also for one that is scalable for future growth.

We offer this service to assist you to construct your own organisation chart, giving you clarity of the key functions within your business and who has responsibility for them. An updated organisation chart will allow your business to be more sustainable, scalable and, ultimately, saleable.

### Who should use this service?

If you are feeling overwhelmed in terms of the number of different tasks you are trying to do and/or have employees who could be supporting you more, then we recommend this. It will be an opportunity for you to define who should be doing what to improve efficiency and give you more time to concentrate on your main activities.

### What is involved?

You will attend an initial full day planning meeting with us:

1. We'll discuss the 5 fundamentals to develop an Organisation Chart.
2. We'll follow our structured process to create an effective Organisation Chart.
3. We'll supply you with an Organisation Chart template to use as a starting point.
4. We'll provide you with recommendations and clear next steps for you to complete the first draft.

Over the next weeks you will then streamline and refine your draft Organisation Chart and submit it to us for review and discussion prior to a final meeting where we will finalise your organisational structure.

### When should I have a session?

If you don't have clear job roles and position responsibilities within your organisation then we advise that you begin this project as soon as possible. Also, if you are planning for expansion it will help to clarify roles and responsibilities required for a sustainable, scalable and saleable organisation.
